- Establishing data security and responsible AI usage policies
- Developing a practical roadmap for AI-driven operational transformation

Q&A and Closing Remarks
- Open forum for questions and discussions.
- Recap of key takeaways.

TRAINER'S PROFILE

Dr. Arslan Javed

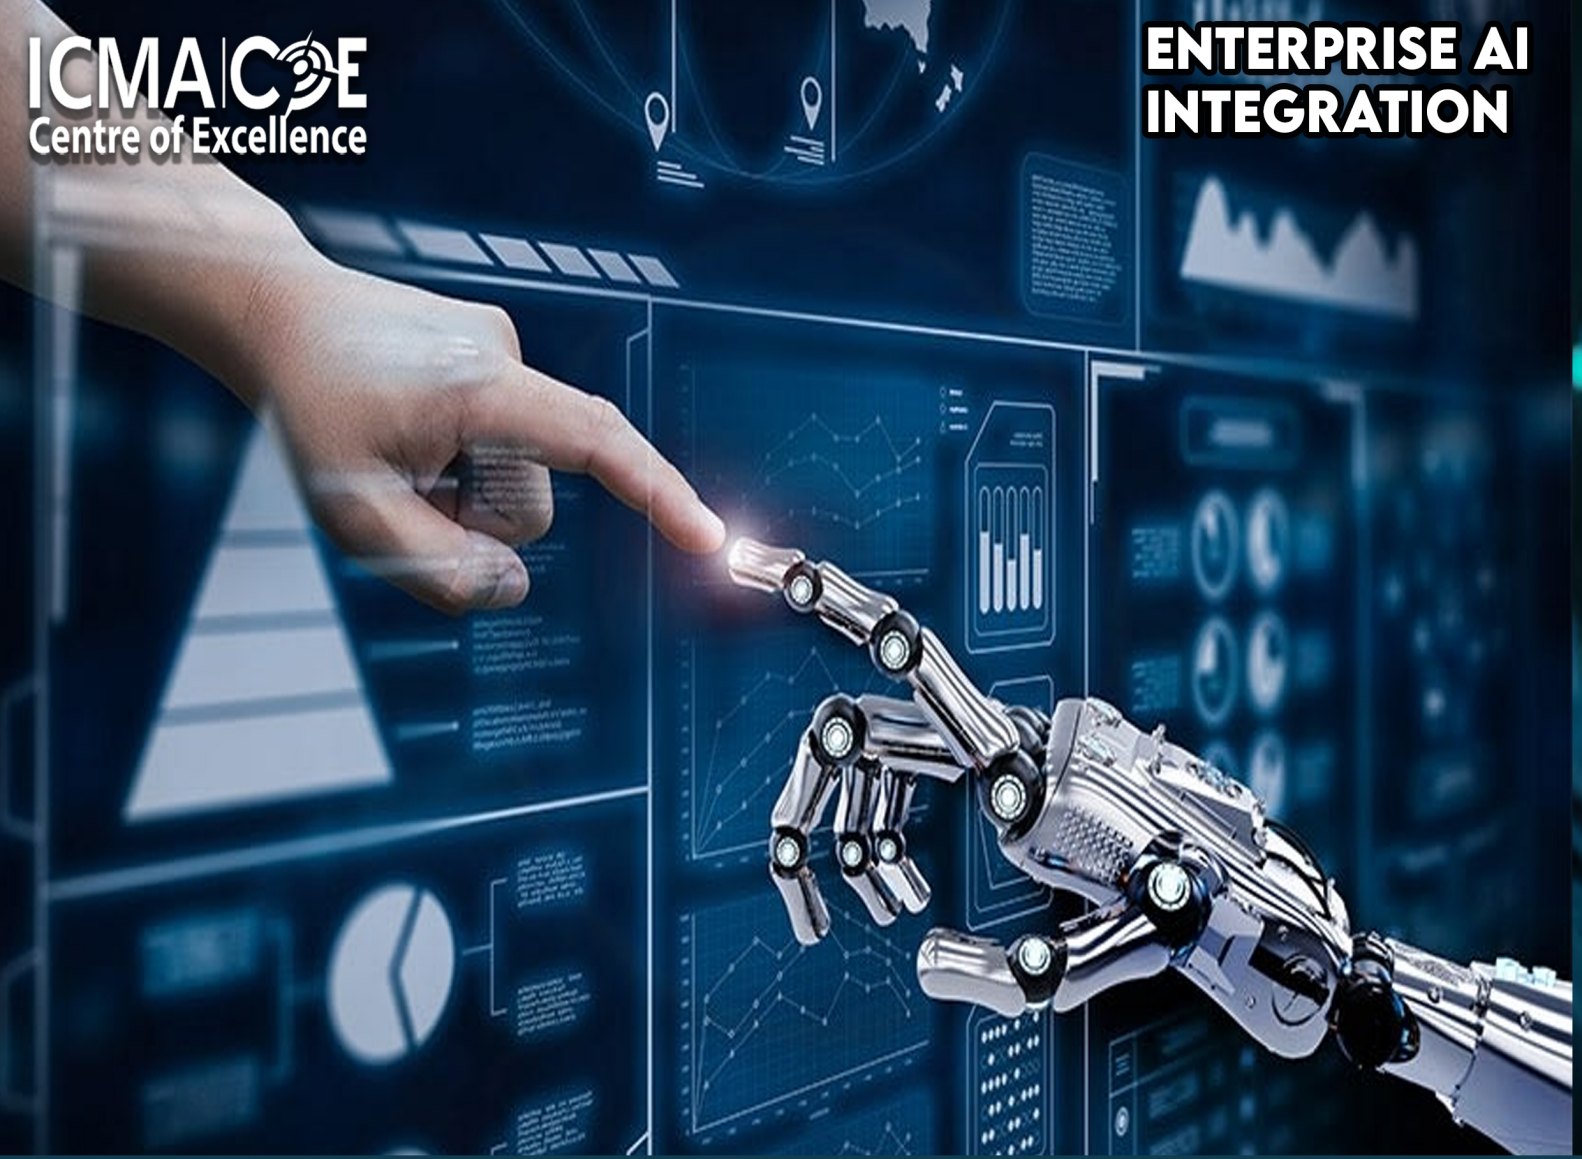

(PhD) Corporate Trainer | Entrepreneur
Digital Transformation Coach

With a Ph.D. in Innovation and Entrepreneurship and 17 years of experience coaching executives, Dr. Arslan bridges the critical gap between high-level business strategy and the operational realities of digital transformation. He is the founder of several innovative ventures including Center of Innovation and Experiential Learning - CIEL, NUQTA Quests and Tours, He is also the architect behind the nationwide Skills to Earn 2026 initiative. Dr. Arslan understands the daily friction of scaling operations and upskilling modern workforces. In his book, The Executive Pivot: Wellness, Exposure, and Leadership, he outlines the exact frameworks leaders use to maximize human leverage through smart systems. In this session, Dr. Arslan strips away the technical jargons, equipping you with the practical tools to lead confidently into the AI era.
